Professional Summary

Senior Full-Stack Programmer specializing in Flutter and backend engineering with NestJS and Python. Passionate about software architecture, clean code, and agile methodologies. Proven track record of architecting and delivering high-quality mobile applications and backend systems from concept to production - including digital wallets, e-commerce super apps, and enterprise POS systems. Experienced in leading development teams, mentoring engineers, and driving end-to-end delivery using modern state management, CI/CD, and cloud infrastructure.

Skills

Languages & Frameworks Dart, Flutter, TypeScript, Node.js, Express, NestJS, Python, Flask

Mobile Architecture & State Management MVVM, [Stacked](#), Provider, Riverpod, BloC, Clean Architecture

Flutter Ecosystem [Stacked](#), [Build Runner](#), [Freezed](#), [Firebase](#), [Google Maps](#), [MapBox](#), [Flutter WebRTC](#), [Notifications](#)

Own Flutter Packages [AnimatedMilestone](#), [AnimatedReactButton](#), [ConfirmationSuccess](#), [WoHttp](#)

Infrastructure & DevOps [Redis](#) (in-memory database), Ubuntu, Docker, Play Store Publishing

Project Management & Methodology [Jira](#), [ClickUp](#), Agile / Scrum

Professional Experience

[Kacha DFS](#) - Senior Mobile App Developer Jan 2026 - Present

- Architecting and developing Kacha, a digital wallet and payment platform serving thousands of users
- Leading mobile architecture decisions, ensuring clean separation of concerns and testable code
- Collaborating cross-functionally with backend and product teams in an agile environment

Red-Cloud ICT Solutions - Mobile App Section Head Mar 2022 - Jan 2026

- Led the mobile development division, defining technical standards and architectural guidelines
- Designed and delivered CNDroid Mobile POS, an Android point-of-sale application with

receipt printing and embedded ERP system

- Drove adoption of Clean Architecture, state management best practices, and code review processes
- Managed project roadmaps, sprint planning, and team mentorship using agile methodologies

Projects

Kacha Mobile App - Digital wallet and payment application [Kacha](#)

HuluBeje Super App - Full-featured e-commerce mobile application Tech stack: Flutter, Firebase, NestJS, Redis, .NET Core [HuluBeje \(10k+ downloads\)](#) [Video Overview](#) [Screenshots](#)

HuluBeje Delivery Driver App - Delivery driver companion application (Flutter)

HuluBeje Delivery Dispatcher API - Backend dispatcher service (NestJS, Firebase)

CNDroid Mobile POS - Android point-of-sale application with receipt printing and embedded ERP system
