Amharic: Native

English: Proficient

SUMMARY

Senior full-stack engineer who designs and ships production systems across the stack: NestJS and Python backends, Telegram bots, job pipelines, and Flutter clients. Founded Josad, an AI-powered job aggregator serving 15k+ Telegram members through four bots, a machine-learning classifier, and a modular NestJS API. Experienced with FinTech wallets at Kacha and large e-commerce backends at Red-Cloud, always applying AI-accelerated delivery and clean architecture to go from idea to production fast.

EXPERIENCE

Senior Mobile App Developer · Kacha DFS

Jan 2026 - Present

Addis Ababa

- Building the IFB financing app and partner bank wallet apps, integrating with backend services for multiple financial providers
- Maintaining the Kacha digital wallet and payment platform with thousands of daily users in an agile delivery model

Mobile App Section Head · Red-Cloud ICT Solutions

Mar 2022 - Jan 2026

- Designed backend APIs in NestJS for the HuluBeje super app: order processing, real-time seat management, and dispatch for delivery
- Led the mobile division, setting architecture standards and mentoring developers across the product line
- Built CNDroid Mobile POS with embedded ERP integration serving merchants

SELECTED PROJECTS

Josad: Job Aggregator Platform

AI-powered job aggregation for Ethiopia's tech market, serving 15k+ Telegram members. Scrapes jobs from channels and job boards, classifies them with ML, and dispatches to topic channels. Includes 4 Telegram bots for employers, applicants, KYC and admin workflows, and an employer portal built as a Flutter Web Telegram Mini App.

NestJS · Telegram Bot API · MTProto · Python (SVM + BERT) · Firestore · Redis · BullMQ

Telegram Channel (15k+) | Platform

Dispatcher API

Order management engine for HuluBeje: processes, evaluates and dispatches orders to eligible drivers, and handles the full order lifecycle from initiation through delivery and review.

NestJS · Supabase · Redis

Red Cache

Real-time seat management engine and trending movie notifier, plus weekly movie chart report generator, integrated with the HuluBeje mobile app and Cinema ERP POS system.

NestJS · Redis

HuluBeje Super App

Full-featured e-commerce super app with 10k+ downloads, and the NestJS + Redis backend powering orders and real-time data.

Flutter · Firebase · NestJS · Redis · .NET Core
